Building Someone Amazing™ through play

Play is a joyous and fundamental part of childhood. It's the innate process through which children interact and engage with their world. Playful learning experiences where children have the freedom to explore, experiment, and express their creativity lay the foundation on which they build who they will become.

For over 35 years, Learning Resources has developed innovative, fun, award-winning educational toys and games that support this natural process of learning through play. During 2021 we are adding over 100 exciting new products to our extensive range. Each is designed to prompt curiosity and discovery and help provide children with the building blocks they need to develop a lifelong love of learning.

Here are some of our favourites for 2021.

Circuit Explorer® takes learning about circuits off a flat board and into a fun 3D space-themed world. Children line up the circuitry graphics on the easy-to-connect construction pieces and snap them together to close the circuits, building a Rocket, Rover or Deluxe Base Station with working lights and fully powered features.

Numberblocks are the friendly characters from the award-winning CBeebies series that help young children see how numbers really work. Now children can build their own Numberblocks with the new **MathLink® Cubes Numberblocks 1-10 Activity Set**. The set has everything children need to construct the Numberblocks from One to Ten in all the different ways seen in the episodes and engage with 30 activities that closely follow several episodes from Series 1-3.

Design & Drill® Bolt Buddies™ is a simple construction toy range for young children. Using a real working power drill and colourful bolts children build a Rocket, Pick-It-Up Truck, Race Car, Fire Truck, Rescue Helicopter or Police Motorcycle. Each toy's packaging unfolds into a themed playset to inspire a rich, imaginative play experience.

Following on from the success of the award-winning **24-Hour NumberLine Clock™**, the inventive teaching clock that shows children that a clock face is simply a circular number line, we've added an **Advanced NumberLine Clock™**. This new geared version teaches two concepts - elapsed time and how time is displayed on different clock faces that children will see in the real world.

Aware that space is at a premium in modern classrooms we have developed the **Nestable Pan Balance** and **Nestable Bucket Balance**. A fun, hands-on way for students to explore measurement, weight, volume, and equivalency these scales are quick and easy to assemble and disassemble, and pieces nest together for convenient, compact storage.

As you look through our new 2021 catalogue, we hope you'll have many opportunities to discover your own new favourites.

 Look out for our **award winners** throughout the catalogue

Number BLOCKS

New

MathLink® Cubes Numberblocks 1-10 Activity Set

Numberblocks are the friendly characters from the award-winning CBeebies series that help young children see how numbers really work. Now Numberblocks MathLink® Cubes bring maths learning to life. Children use the special edition Numberblocks MathLink Cubes to build their own Numberblocks from One to Ten in all the different ways seen during the series and engage in 30 activities that closely follow episodes from Series 1-3. The 251-piece set includes 100 Numberblocks MathLink Cubes, 59 faceplates, 54 stickers, 11 Numberlings, 11 Character Cards, 15 double-sided write and wipe Activity Cards, a stand for Zero, and a Supporting Activity Guide. Measures 30cm L x 23cm W x 4cm H. **251 Piece Set**

Geared clock - keeps correct relationships with hour and minute hands

Removable number lines

Advanced NumberLine Clock™

New

An enhanced version of our award-winning 24-Hour NumberLine Clock™, the new Advanced NumberLine Clock teaches children lapsed time and how time is displayed on different analogue clock faces. The hands are geared and keep the correct relationship between hour and minutes, which students can use to calculate intervals of time and solve lapsed time problems. The clock has two removable number lines and three different face styles so children can practise telling time on clock styles they will see in the real world.

Max the Fine Motor Moose

New

When young children place the colourful textured rings on Max's antlers, they get to practise key fine motor capabilities including wrist rotation, pincer grasp and hand-eye co-ordination. Indents on the rings naturally guide little hands to practise the all-important grip action they need to eventually hold a pencil. The brightly coloured rings also introduce early counting and sorting skills. Each ring is textured to introduce tactile awareness through play. **13 Piece Set**

LER 9092

ages 2+

Huey the Fine Motor Hippo

New

Huey the friendly hippo helps toddlers build four skills through play – fine motor skills, early number learning, colour identification, and shape recognition. When young children pop the colourful twistable birds into Huey's back, they practise hand-eye coordination, and build hand strength. Includes 5 twistable birds perfectly sized for little hands. Birds store inside Huey's back. Huey measures 10cm H x 22cm W x 16.5cm L. **6 Piece Set**

Puzzle Cards

Build preschool readiness, one piece at a time. These self-correcting puzzles help young children develop early numeracy and literacy skills through play. Each puzzle features brightly coloured illustrations and numbers, letters, or simple words. Designed with littles ones in mind, each puzzle fits together in a unique way, so there's only one correct answer per puzzle. This allows children to experiment and self-correct as they figure out the answers. Every Puzzle Cards set comes in a sturdy, reusable box for easy tidy-up and storage after playtime is finished. Puzzle sizes range from 10cm W x 10cm H, to 18cm W x 8cm H.

Design & Drill® Marble Maze

This fun STEM activity set is ideal for cause-and-effect learning through play. Mini makers choose a maze challenge card, create the maze design using the drill, bolts, and track pieces, drop in a marble and watch it go! Children can use the 10 predesigned maze challenges or create their own. Track pieces vary in length and design, and offer lots of fun, open-ended, creative STEM play opportunities. Set includes maze board, 15 track pieces, 20 bolts, 2 legs, power drill, 10 double-sided challenge cards, and 2 wall brackets. Maze board measures 30cm H x 25cm W x 5cm L. Drill requires 3 AAA batteries, (not included). **54 Piece Set**

CONNECT
THE CIRCUITS
TO POWER
YOUR PLAY!

CIRCUIT-POWERED
LIGHTS, SOUND
AND MOTION!

EI-4201

Circuit Explorer®

Construction play meets electrical engineering with this snap-together building system. Line up the circuitry on the over-sized pieces and snap them together to build a fully powered, large-scale space-themed world. Circuit Explorer is a simple building set that lets kids build realistic-looking 3D toys that light up and move! Follow the easy instructions to build a Rocket with light-up Nose Cone and Nozzles, Space Rover with light-up headlights, and Landing Pad with colour changing light effects, or connect the pieces your way to make out-of-this-world custom, light-up, builds. Then launch into hours of screen-free, pretend-play fun with the included astronaut and robot figures.

Puzzle Cards

Build preschool readiness, one piece at a time. These self-correcting puzzles help young children develop early numeracy and literacy skills through play. Each puzzle features brightly coloured illustrations and numbers, letters, or simple words. Designed with little ones in mind, each puzzle fits together in a unique way, so there's only one correct answer per puzzle. This allows children to experiment and self-correct as they figure out the answers. Every Puzzle Cards set comes in a sturdy, reusable box for easy tidy-up and storage after playtime is finished. Puzzle sizes range from 10cm W x 10cm H, to 18cm W x 8cm H.

Hoot the Fine Motor Owl

Hoot the Fine Motor Owl helps little hands build strength, coordination, grip and scissor skills through five fun activities. Children drop coins down the chute, rotate Hoot's eyes, poke his squeaky nose or flap his wings with the sliding front buttons. Set includes Hoot the Fine Motor Owl, 5 numbered coins in colours yellow, blue, green, red and purple. Owl measures 16.5cm H x 18cm W. 6 Piece Set

LER 9045

ages 18 months+

Fine Motor Peacock Pals

Pedro the Fine Motor Peacock has invited his fine feathered pals over to help little learners get to grips with fine motor skills, and more. Ideal for a nursery or playgroup setting, these versatile toys help toddlers practise fine motor skills, improve hand-eye co-ordination, and learn colours, textures and basic numbers. Set comprises five peacocks each with five differently shaped push-pull feathers, designed with little hands in mind. Match the feather colour to the peacock or mix and match and see what a brightly coloured pride of peacocks Pedro and his pals are. 30 Piece Set

LER 9095

ages 18 months+

Max the Fine Motor Moose

New

When young children place the colourful textured rings on Max's antlers, they get to practise key fine motor capabilities including wrist rotation, pincer grasp and hand-eye co-ordination. Indents on the rings naturally guide little hands to practise the all-important grip action they need to eventually hold a pencil. The brightly coloured rings also introduce early counting and sorting skills. Each ring is textured to introduce tactile awareness through play. **13 Piece Set**

LER 9092

ages 2+

Finn The Fine Motor Fish

New

Get a handle on fine motor fun with Finn, the colourful aquatic friend that helps toddlers practise essential hands-on skills. Finn comes with 10 bright grip-and-pull stars that have been designed to encourage whole-hand movement. Playing with Finn helps improve hand-eye co-ordination, refine grip and wrist rotation abilities, and introduces colour identification. Stars store inside for easy tidy-up. **12 Piece Set**

LER 9093

ages 18 months+

Pedro the Fine Motor Peacock

This fine feathered peacock helps kids boost key skills: learning colours, number, shapes and textures, while building hand strength, hand-eye coordination and other fine motor essentials. Set comprises Pedro and 5 numbered push-and-pull feathers. Pedro measures 8cm H x 10cm W. **6 Piece Set**

LER 9094

ages 18 months+

Spike the Fine Motor Hedgehog™

A prickly solution is required to put together this colourful two-piece plastic hedgehog with removable spines! Includes smiling hedgehog, 12 spine pegs and activity guide. Develops colour recognition, sorting and fine motor skills. Hedgehog measures approx. 15cm in diameter. Spines can be stored inside ready for assembly. **14 Piece Set**
LER 8904

ages 18 months+

Steggy the Fine Motor Dino

There's a spiky situation that needs hands-on help. Steggy the Fine Motor Dino helps little learners develop fine motor skills. Inserting the brightly coloured numbered scales into Steggy's back helps build hand strength, refine the pincer grasp, and improves hand-eye coordination. Plus young children also learn about colours and numbers. Scales store inside when not in use for quick and easy tidy-up. Steggy measures 15cm H x 22cm W. **11 Piece Set**
LER 9091

ages 18 months+

Huey the Fine Motor Hippo

New

Huey the friendly hippo helps toddlers build four skills through play – fine motor skills, early number learning, colour identification, and shape recognition. When young children pop the colourful twistable birds into Huey's back, they practise hand-eye coordination, and build hand strength. Includes 5 twistable birds perfectly sized for little hands. Birds store inside Huey's back. Huey measures 10cm H x 22cm W x 16.5cm L. **6 Piece Set**
LER 9108

ages 18 months+

Tri-Grip Tongs

Ideal for helping young children practise essential fine motor skills and prepare to hold a pencil. **MESMERIZING
FEEL-GOOD
FLUFFY STUFF**

Playfoam Pluffle™ 

Squish it, squash it, watch it flow! Playfoam Pluffle™ is the mesmerizing fluffy stuff kids love to smush, squish and mix. Where Playfoam® is all about construction, Playfoam Pluffle is about mesmerizing deconstruction. This colourful squish-sation is ready to use straight from the packaging. Simply tip out from the clear storage tube, give it a squish and release to see the magical movement. Or keep it in the tube and flip it for a lava lamp-like flow. Perfect for tactile learning and fun, it's soft, fluffy, and non-sticky. Squishing, pinching, and squeezing Playfoam Pluffle develops hand strength and fine motor skills, and the eye-catching flowing action encourages concentration. The child-friendly formula is stain-free, never dries out and is available in six eye-catching colours for hours of creative sensory play.

Geared clock - keeps correct relationships with hour and minute hands

Removable number lines

New

Advanced NumberLine Clock™

An enhanced version of our award-winning 24-Hour NumberLine Clock™, the new Advanced NumberLine Clock teaches children lapsed time and how time is displayed on different analogue clock faces. The hands are geared and keep the correct relationship between hour and minutes, which students can use to calculate intervals of time and solve lapsed time problems. The clock has two removable number lines and three different face styles so children can practise telling time on clock styles they will see in the real world.

Removable
number
lines

24-Hour NumberLine Clock™

A clock is just a circular number line. Once children realise this, learning to tell the time becomes much easier. The new 24-Hour NumberLine Clock helps children learn time by physically transforming a number line on to a clock face helping them graduate from counting to time telling. This hands-on teaching clock comprises a removable clock face numbered 1-12, a clock face with both 12- and 24-hour numerals, a minute face numbered 0-60, and two removable hands. By unfurling the clock faces into lines, children can visualise how to read time and understand concepts including telling time to the minute and intervals of time. This innovative learning clock comes with a Getting Started activity guide and four activities. 24-Hour NumberLine Clock measures 12cm H x 11cm W. Giant Magnetic 24-Hour NumberLine Clock measures 36cm H x 33cm W.

5-in-1 Outdoor Measure-Mate™

Perfect for non-standard measuring or the introduction of standard units, the primary aim of the Measure-Mate is for young learners to have fun exploring and measuring the natural landscape. Its robust build means that it will cope with vigorous use in rough terrain and its bright colouring is visually appealing and also ensures the components will all be returned to its handy mesh bag after use! The fun is further enhanced by the 'bird footprints' that the trundle wheel leaves behind and deciding where to place the whimsical stickers that will customise the Measure-Mate. The Measure-Mate can be reconfigured to create five separate measuring modes and includes 2 Calliper jaws, trundle wheel with bird 'footprint' tread, handle/base, measuring stick showing centimetres and inches, sheet of colourful stickers, mesh storage bag and an activity guide. Measures 97cm L. 32.5cm wheel diameter.

93431 (Set of 4)

93383 (Set of 25)

ages 3+

10-Row Rekenrek Counting Frame

Teach children how to visualise their numbers! This calculating tool provides young learners with the visual model they need to discover number relationships and develop a variety of addition and subtraction strategies. Red and white coloured beads allow children to make mental images of numbers for counting, composing and decomposing numbers, adding and subtracting, and visualising through 100 using groups of five and ten as anchors.

Measures 23cm L x 10cm W x 22cm H.

LER 4359

ages 5+

2-Row Rekenrek Counting Frame

Help children develop number sense and computational skills! This calculating tool provides young learners with the visual model they need to discover number relationships and develop a variety of addition and subtraction strategies. Standard red and white coloured beads, in 5-bead groupings, slide along the wires to help children make mental images of numbers using five and ten as anchors for counting and lead to solving more complex strategies to solve equations. Measures 23cm L x 7cm W x 7.5cm H.

LER 4358

ages 5+

Rekenrod™ Foam Ten-Frames

Two-sided foam counters help students develop number concepts and learn basic number facts to 10 and beyond. The frames help students connect the visualisation of the Rekenrod tool to the anchor numbers of 5 and 10 within the ten frames structure. Frames connect to each other.

Produce over 50 unique grids with write-on/write-off borders

Array Transparencies

Double-Sided Array Cards

2 - 12 Rows

2 - 12 Columns

Build-A-Grid

Grids are an effective visual way to help students understand abstract mathematical concepts. Build-A-Grid offers a quick, easy and reusable way to create over 35 unique grids for teachers and students. The set includes 16 different sheets which slide into the frame and overlay to create grid patterns. These can be used to explain a variety of maths concepts including multiplication, division, fractions and decimals. The write-on/wipe-off border allows students to model their problem-solving techniques. Build-A-Grid integrates with the Base Ten Blocks and Ten Frames. Available in a Magnetic Demonstration Grid measures 32 x 32 cm, and plastic Student Grid measures 18 x 18 cm.

92426 – Magnetic Demonstration Grid

92427 – Student grid

ages 6+

Magnetic Demonstration Percent Bar

Percent Bar

Percent Bar helps students picture percentages while they learn to calculate them. Students use the colourful pieces – ranging from five to 50 percent – to construct a percentage on the bar. This guides them on strategies as they work out problems involving part unknown, percentage unknown and whole unknown. Set includes a base, 2x 50% strips, 4x 25% strips, 5x 20% strips, 10x 10% strips, 10x 5% strips which can be put together to relate to any percentage as a whole. Students use the write-on/wipe-off feature to show their work. The Magnetic Demonstration Set measures approximately 31cm W. Paddle Board measures 28cm W. ⚠️ SMALL PARTS. Not for <3 yrs.

Magnetic Percent Bar Answer Boards

Math Marks the Spot™ Game

Play with teams or two players at opposite ends of the mat with coloured markers. Take it in turns to roll the dice and answer the sum. One player from either side competes to put their marker on the corresponding number first. Win five rounds to win the game! Reinforces energetic practise of addition & subtraction with numbers 1-6. Includes a mat measuring 152cm W, two 13cm number cubes, operations cube, 28 cardboard markers and an activity guide.

LER 0383

ages 5+

Make a Splash™ 120 Activity Mat

Dive into number concepts including operations, doubling, place value and more, all up to 120! Roll the number cubes to create a two-digit number and place a square frame over the corresponding number on the mat. Roll the +/- cube and work out which number is the answer (e.g. if 42 is framed and you roll +10, find the number 52). Use the "+" frame to check your answer and win a point! Measures 120cm W x 140cm L.

92860 Rainbow Fraction® Demonstration Clings Circles: Includes: 1 red whole (approx. 19cm diameter); 2 pink halves; 3 orange thirds; 4 yellow fourths; 5 green fifths; 6 teal sixths; 8 blue eighths; 10 purple tenths; and 12 black twelfths. **51 Piece Set**

92861 Rainbow Fraction® Demonstration Clings Tiles: Includes 51 pieces: 1 red whole (approx. 30cm L); 2 pink halves (approx. 15cm L); 3 orange thirds (approx. 10cm L); 4 yellow fourths (approx. 7.5cm L); 5 green fifths (approx. 6cm L); 6 teal sixths (approx. 5cm L); 8 purple eighths (approx. 3.8cm L); 10 purple tenths (approx. 3cm L); and 12 purple twelfths (approx. 2.5cm L); (all pieces are approx. 3.8cm H). **51 Piece Set**

ages 8+

Magnetic Pizza Fractions

Serve up pizza to demonstrate fractions to groups or the whole class. Represents one whole, $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$, $\frac{1}{6}$, and $\frac{1}{8}$ values in 24 pieces that stick to any magnetic surface. Pizzas measure 20cm diameter. Activity guide included.

Set of 6 full pizzas
LER 5062

ages 6+

Magnetic Apple Fractions

An apple a day makes fractions seem like play! Appealing fruits provide a real-world example for introducing early fractions. Apples represent one whole, $\frac{1}{2}$, $\frac{1}{3}$ and $\frac{1}{4}$. Safe, embedded magnets hold colour-coded pieces together. Also perfect for demonstrating equivalencies, addition and subtraction with fractions. Activity guide included. Apples measure 7.5cm H. **10 Piece Set**

Fraction Pie Puzzles

Making fractions is "easy as pie." This kinaesthetic way to reinforce basic fraction concepts teaches students how fractional parts make up a whole and about equivalencies, common denominators and multiples. Select a card, place the starting pieces, then complete the circles with the remaining fraction pie pieces. Includes game board, 50 levelled puzzle cards, 65 foam fraction pieces and activity guide. For 1 to 2 players. Game board measures 33cm W x 29cm L.

Pizza Fraction Fun™ Game

This game even makes fractions irresistible, just like pizza! Includes seven different games in one to get children familiar with fraction values from one whole to $\frac{1}{12}$. For 2 to 6 players. Cardboard pizzas measure 27cm in diameter.

⚠ SMALL PARTS. Not for <3 yrs
LER 5060

ages 6+

Fraction Formula™ Game

It's a race to make a whole! Taking turns, the players draw a card, find the corresponding fraction tile and drop it in their cylinder. They "hold" if they think they are as close to one whole as they can get, or continue to draw cards if they think they can get closer! The round ends when all players have said "hold". Players score points according to how close they get to one whole. The winner is the player with the highest score after four rounds. Can also be used as a tool for teaching fraction values and equivalencies. For 2 to 4 players.

tacklingtables™

Teacher-developed and classroom-tested, tacklingtables™ is the game-based way to help students meet the National Curriculum outcome of knowing their times tables and corresponding division facts off by heart the end of Year 4.

The colour-coded chart shows which times tables they need to learn each year. Colour-coded playing cards feature the corresponding times tables and give kids a fun way to practise their tables and instant recall in small or larger groups. Practising through playing a game is an ideal way to help children learn and grow in confidence. The Classroom Set offers teachers a reliable baseline assessment method to evaluate each child's capabilities and measure their progress.

Botley® the Coding Robot Activity Set 🏆

Botley® the Coding Robot is your 100% screen-free coding buddy. Botley is a programmable robot designed to teach children coding basics and sequential thinking through hands-on play. Through programming Botley to complete a sequence of up to 80 steps including forwards, backwards and right and left turns, children learn key STEM skills. For first-time coders, Botley is ready to use right out of the box. As children grow in confidence and capability, they can use features such as object detection and black line following to create more complicated sequences and challenges. The 77-piece Activity Set is an ideal way to take children from beginner coding play to more complex challenges. The set comprises Botley, mats, interactive obstacles, blocks and more. Focuses on step-by-step coding, programming and critical thinking. Incorporates object detection and loops into coding challenges.

Requires 5 AAA batteries not included. **77 Piece Set**

botley[®] 2.0

the coding robot

Botley[®] 2.0 the Coding Robot Activity Set

Botley[®] 2.0 is here to put the fun in coding fundamentals. The next generation of 100% screen-free coding robot, kids can do even more with Botley 2.0! Programme Botley 2.0 to do up to 150 steps in one sequence including 45 degree left and right turns. Turn off the lights and see Botley 2.0's eyes light up. You can even change the colour or programme by colour and watch Botley 2.0 put on a cool light show and dance to the beat.

Botley 2.0 has a playful personality and loves games. Play a game of Botley Says where players listen and repeat the musical sequences. Or crack the secret code and turn Botley 2.0 into a police car or roaring dinosaur. Because Botley 2.0 loves trying new things, use the two different face plate colours and glow-in-the-dark stickers to personalise each Botley 2.0.

It's easy for first-time coders to get started with Botley 2.0 and as kids grow in confidence, they can use the the Activity Set to build up an obstacle course, programme Botley 2.0 to do up to 150 steps and watch it navigate through. The 77-piece Activity Set includes programmable robot, easy-to-use remote programmer, two detachable robot face plates and arms, reversible mats, 40 coding cards, interactive blocks and obstacles and activity guide. Botley measures 13cm W x 7cm H x 8.5cm D. Requires 5 AAA batteries not included.

Artie 3000™ 

Artie 3000™ is the coding and drawing robot that puts children in control! Artie has a built-in Wi-Fi server so can be used anywhere without requiring an internet connection. The easy-to-use drag and drop programming can be used on a Mac, PC or tablet and offers four modes of play; pre-programmed shapes, games, art for colouring and freeform coding. Artie has 360-degree movement - tell him to turn right or left, forwards or backwards or spin in any direction! Four swappable, washable coloured pens are included and the innovative drawing simulator software allows coders to test their ideas before setting Artie down on paper. Children will learn basic programming, geometry and maths whilst creating cool designs and having great fun! Measures 15.5cm H x 14cm W. Requires 4 AA batteries not included.

Circuit Explorer®

Construction play meets electrical engineering with this snap-together building system. Line up the circuitry on the over-sized pieces and snap them together to build a fully powered, large-scale space-themed world. Circuit Explorer is a simple building set that lets kids build realistic-looking 3D toys that light up and move! Follow the easy instructions to build a Rocket with light-up Nose Cone and Nozzles, Space Rover with light-up headlights, and Landing Pad with colour changing light effects, or connect the pieces your way to make out-of-this-world custom, light-up, builds. Then launch into hours of screen-free, pretend-play fun with the included astronaut and robot figures.

⚠️ SMALL PARTS. Not for <3 yrs. ⚠️ WARNING: This toy produces flashes that may trigger epilepsy in sensitized individuals.

EI-4200 Circuit Explorer® Rocket Assembled Rocket measures 22cm H x 4cm W. Requires 9 AAA batteries (not included).

EI-4201 Circuit Explorer® Rover Assembled Rover measures 6cm H x 19cm L. Requires 9 AAA batteries (not included).

EI-4202 Circuit Explorer® Deluxe Base Station Assembled Space Station measures 29cm H x 69cm W. Requires 15 AAA batteries (not included).

STEM Force & Motion Activity Set

Get your motor running with real STEM learning! Discover the science of motion through scientific exploration with colourful, engaging tools and hands-on activities. Explore the science of 'how things go' as you conduct investigations, solve problem and explore early engineering. Features ten double sided activity cards covering all aspects of STEM, plus key science concepts of gravity, inertia, friction, push/ pull and more! Includes two cars, two double sided tracks, four weighted blocks, pendulum ball, ladder with two removable bars and a comprehensive activity guide with reproducible materials. Ladder measures 23.5cm H, tracks measure 30.5cm L and cars measure 7cm L. **20 Piece Set**

Organisation Station® Pocket Chart

Perfect for organising the classroom and the students. Convenient storage chart makes collecting homework and sending notes home easy. Includes blank, wipe clean name tags. Measures 72cm W x 114cm H.

LER 2255

2 levels of play

Jumbo Magnetic Spin Wheel

Transform your whiteboard into an interactive, whole class game space! Simply place the spinner on the whiteboard and use dry-erase markers to create games and activities – the possibilities are endless. Includes three double sided, wipe clean cards and teacher guide with cross-curricular activity suggestions. Measures 40cm in diameter. **5 Piece Set**
 ⚠ SMALL PARTS. Not for <3 yrs
EI-1769

ages 3+

Magnetic Student Wipe Clean Boards

Ideal for individual learning or small group demonstration. Wipe clean boards are double sided, with one magnetic side. All boards measure 29cm W x 23cm H.
Set of 10
LER 4278

ages 3+

Magnetic Hooks

A simple way to accessorise the whiteboard and organise classroom display! Coloured hooks measure 3.5cm in diameter. White hooks measure 3.2cm.
 ⚠ SMALL PARTS. Not for <3 yrs
LER 2694 Coloured Magnetic Hooks Set of 4
LER 2698 Original White Magnetic Hooks (Not shown) Set of 5

SpinZone® Magnetic Whiteboard Spinners

Add a fun spin to classroom activities! Use these three giant spinners to turn the whiteboard into a custom game or activity for the whole class. Draw a circle, write in content, attach a spinner and play! Includes arrow, pencil and pointing hand spinners. Measure 28cm L. **3 Piece Set**
 ⚠ SMALL PARTS. Not for <3 yrs
EI-1768

ages 4+

Magnetic Storage Pockets

Handy pockets enable teachers to store whiteboard accessories within easy reach, or even provide children with additional desk storage. Four pockets in four different colours hold up to 350g each and measure 23cm W x 14cm H.

Set of 4
LER 6447

Workstation Signs

Double-duty signs identify classroom activity centre areas and hold up to 30 activity sheets in the handy back pocket. Customise for small group activities, daily work, classroom reminders and more. Wipe clean signs feature green, orange, purple, blue and red borders for differentiation. Stand up easels measure 23cm W x 30cm H. Set of 5

LER 0482

Wipe Clean Pockets

Environment and budget friendly! Clear pockets turn every paper into a reusable wipe clean activity; just slip in any activity worksheets. Includes five pockets and five dry-erase markers with eraser tips that store in the handy loop on the top of each pocket. Measure 25cm W x 35cm H. Set of 5

LER 0477

ages 3+

Magnetic Collaboration Boards

Teamwork and design skills will be in abundance when children collaborate using this set of four large magnetic wipeable writing/display boards. Boards come in four colours and measure 28cm x 43cm. Includes strong, durable grommets for hanging. Set of 4

LER 6370

ages 5+

Magnetic Pocket Chart Squares

Beyond versatile! Use the four charts individually, or connect vertically or horizontally with hook-and-loop fasteners to make a larger chart! Great for small groups, combined whole group displays and more. Each chart features five rows of clear pockets for teaching cards, plus two large storage pockets on the reverse side. Hang with included magnets or grommets.

Each chart measures 35cm W x 42cm H. Set of 4

Learning Resources Ltd. Trade Terms 2021

UK & IRELAND** TERMS OF SALE

Trade prices are shown in our 2021 pricelist.

Carriage is paid on orders of net £250 or over. Orders under £250 will incur a minimum £15 carriage and handling charge.

For credit account customers, orders will be ready to ship within 7 working days from receipt of order. Where payment is required on proforma, orders will be ready to ship within 7 working days of receipt of cleared funds.

Although we make every effort to maintain stock of all items in our warehouse, shortages may occasionally occur. If an item is out of stock, it will automatically be placed on back order, we will provide you with our best expected available dates, unless you have instructed us to cancel the backorders.

Please note the maximum pallet height is 1.7m and maximum carton weight is 25kg.

We cannot be held responsible for the service provided by our carrier which may be affected by unforeseen circumstances.

Payment terms are 30 days from date of invoice for credit account customers.

Accounts must be current before subsequent shipments can be made. Overdue accounts are subject to a 1.5% per month finance charge.

For orders from the Channel Islands and the Isle of Man, please see our Export Terms below.

UK Retail Trade Terms are available on request.

**For Ireland please see our European customer section below regarding shipment of your orders.

EXPORT TERMS OF SALE

Trade prices are shown in our 2021 pricelist.

Our net minimum order value is £350. (For Russia please contact your Sales Manager)

Container pricing or special price quotations are available upon request.

European Customers*

We are no longer able to offer Ex Works collection. We will calculate your delivery charge and send the details to you for your approval before shipping from the UK. Orders will be imported & cleared into the EU under DDP incoterms, prior to immediate onward delivery. You will be invoiced for delivery separately.

Non-European Customer

Prices are EX-Works Southampton (UK).

For credit account customers, orders will be ready to ship within 5 to 7 working days from confirmation of shipping method. Where payment is required on proforma, orders will be ready to ship within 5 to 7 working days of receipt of cleared funds.

We will notify you when your order is ready for collection. Please note orders must be collected within 10 working days of notification. Failing this will result in storage fees of £25 per pallet per week. Uncollected orders after 28 days of notification will be cancelled and products returned to inventory. A restocking fee may apply.

Learning Resources can arrange the shipment on your behalf. Please note all shipping charges are billed separately and require immediate payment.

We make every effort to maintain our stock levels. However, in the event of an item being out of stock, we will send you our best estimated date of availability and automatically include the item to ship with your next order. Should you require the items sooner we can then arrange to ship the back order at your expense.

If backorders are not required to ship automatically they should be cancelled.

We cannot be held responsible for the service provided by you and/or our carrier which may be affected by unforeseen circumstances.

Euro Pallets: Learning Resources reserves the right to pass on an additional charge of £5.00 per pallet to customers requiring their orders packed on Euro Pallets.

Please note the maximum pallet height is 1.7m and maximum carton weight is 25kg

Payment terms are 45 days from date of invoice for credit account customers.

Invoices can only be paid in the stated currency into the corresponding bank account. Please note you will find the relevant bank details on your invoice.

Any errors of payment resulting in loss due to currency differences will not be borne by Learning Resources.

Accounts must be current before subsequent shipments will be made. Overdue accounts are subject to a 1.5% per month finance charge.

These terms apply to orders from the UK to Europe, the Middle East, Africa and India.

For sales to other parts of the world please contact Learning Resources Inc, 380 North Fairway Drive, Vernon Hills, Illinois 60061, USA. Tel: +1 847 573 8400, Fax: +1 847 573 8425

PAYMENTS

New accounts run on a pro forma basis. To set up an account, a completed account application form must be submitted. Please contact your Sales Manager for an account application form.

All credit accounts are subject to credit approval.

PRICES AND TERMS

Prices are exclusive of VAT.

Although it is Learning Resources' intention to maintain prices for a full calendar year, we cannot guarantee that prices or terms will not change over this time period. Learning Resources reserve the right, in their sole discretion and upon 60 days' prior notice, to increase prices upon the occurrence of unforeseen external events that, in our good faith determination, necessitate such increases. Such external events may include, without limitation, large increases in the prices of raw materials, energy, transportation, labour and other manufacturing costs.

Prices are effective from 1st January 2021. Learning Resources Ltd reserves the right to accept or reject any order based on our terms and conditions, which supersede any terms and conditions stated on your purchase order.

Samples are available at a special price. Please contact your Sales Manager for details.

RETENTION OF TITLE

The risk in the goods shall pass from the seller to the buyer upon delivery of such goods to the buyer. However, notwithstanding delivery and the passing of risk in the goods, title and property in the goods, including full legal and beneficial ownership, shall not pass to the buyer until the seller has received cleared funds in full for all goods delivered to the buyer under this and all other contracts between the seller and the buyer for which payment of the full price of goods there under has not been paid.

Payment of the full price of the goods shall include the amount of any interest or other sum payable under the terms of this and all other contracts between the seller and the buyer under which goods are delivered.

SERVICE AND RETURNS

Shortage and/or damaged merchandise must be reported to Learning Resources' Customer Service department within 15 days of receipt of shipment. Claims for damages must be supported by photographic evidence.

In the event of a shortage, we will send the item or credit your account with prior approval from a Customer Service representative.

For damages that are the result of product defects, we will arrange collection of the item(s) and issue a credit or send a replacement.

For goods showing visible damage on the shipping carton, instruct the carrier to record damages on the freight bill before accepting delivery. Goods damaged in transit must be reported to the carrier immediately. Save all original shipping cartons, packing material and damaged items until they have been inspected or your claim has been settled. Goods must be signed for as damaged.

All returns must be accompanied by a packing slip and marked with an authorisation number available from your Customer Service representative. There will be no cash refund for returned items.

All items will be inspected upon return and must be in saleable condition to be eligible for credit.

Returns apply only to items listed in our current catalogues.

There will be a 20% restocking fee on all returns unless they are the result of errors made by
